

## EUCLIDE

**SEMITARDIVE THAT AMAZES  
IN THE BUNCH!**

### ADVANTAGES

- Autumn wheat varieties with good yield potential;
- Stable yield;
- Wheat with good milling and baking characteristics, excellent for biscuit production;
- High ecological plasticity;
- Production potential: high.

### AGRONOMIC CHARACTERISTICS

- Medium sized, very winter hardy and fall resistant;
- Maturity group: semi-late;
- Optimum sowing period: 25.09 - 25.10;
- Sowing standard: medium 350 - 450 bg/sqm;
- MMB: average;
- Strong twinning.

### DISEASE RESISTANCE

**Highly resistant to:**

- Powdery mildew (*Blumeria graminis*)

**Medium resistance to:**

- Fusarium
- Rust (*Puccinia*)

### QUALITATIVE INDICATORS

- Protein: more than 12 %;
- Gluten: 20 - 30 %;
- Grain hardness: medium-hard;
- MH: 70 - 73 kg/hl
- Zeleny index: 25 - 40 ml
- W (at 11% protein): 180 - 235
- P/L (at 12 % protein): 0.70 - 1.30
