

LAUREATE

THE WINNER IN
PRODUCTION

ADVANTAGES

- Two-row malting barley variety;
- Excellent production potential and stable yield;
- Used in the malting industry, resulting in a quality beer.

AGRONOMIC CHARACTERISTICS

- Medium sized;
- Very high winter and fall hardiness
- Maturity group: semi-mature;
- Optimum sowing period:
10.02-10.03 (spring); 20.10-20.11 (autumn).
- Sowing norm: 350-450 bg/mp;
- Excellent uniformity.

DISEASE RESISTANCE

Good resistance to most diseases:

- Powdery mildew (*Blumeria graminis*)
- Leaf blight (*Helmitosporiosis*)
- Rust (*Puccinia*);
- *Rychosporium*;
- *Ramularia*.

QUALITY PARAMETERS

- Low protein and high starch content;
- Size: excellent (80-90% >2.5mm);
